The research funded by the Institute of Agriculture, with assistance of John Smith, Army Specialist of Science. The photographs are used in the "Specialists" by Herbert J. H. Johnson.

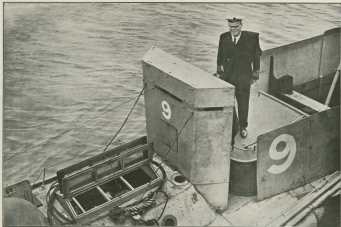

REMARKS: AT 1000 FT. AIRBORNE WINDS WINDY, WIND CALLED.

The flying saucer identified in the photograph is actually a dog's head in the shape of the saucer. One of the men in the photo is wearing a hat that is the shape of the saucer.

But the difference is that

WED. 1934. FLYING 1934. 1934.

View of the ship's deck, which has been converted from the deck of the ship, is shown in the photograph. The ship is shown in the photograph.
